

LESS LETHAL INSTRUCTOR COURSE OUTLINE

Program Description

This instructor level course covers the entire line of munitions manufactured by AMTEC Less-Lethal Systems, Inc. The student will receive a comprehensive understanding of ALS less lethal munitions, including the operational characteristics. This knowledge is paramount when deploying less lethal munitions in a situation or for tactical planning. The course is applicable to all disciplines within corrections, police, military, private security, private training and all respective tactical teams. This is not a tactics course, but tactical applications with less lethal munitions will be discussed and understood. Upon graduation, students will be certified to train others within their department as end users in the deployment and use of OC aerosols, kinetic energy impact projectiles, chemical agents, noise/flash diversionary devices and stun munitions.

Course Schedule

All morning portions will be in a classroom setting with a lecture and PowerPoint presentation. All afternoon portions will be at the range (or suitable area) for hands-on and munitions deployment.

Day One: 0900 – OC Aerosols. Level 1 exposure will be at the student's discretion.

Day Two: 0800 – Chemical Agents & CS Exposure drill will be at the student's discretion.

Day Three: 0800 – Specialty Impact Munitions

Day Four: 0800 – Noise Flash Diversionary Devices

Please refer to the FAQ section under the Training tab at www.lesslethal.com for detailed explanations.

Attire

- Long pants, absolutely no shorts
- Closed toe footwear
- Long or short sleeved t-shirts, no sleeveless shirts
- Ball cap suggested

Concepts and Skills

- History of less lethal munitions
- 12ga shotgun, 37MM & 40MM launcher
- Use of force reporting procedures
- Direct & indirect munitions
- Technological advancements
- Legal issues
- Stun munitions
- Range safety
- Deployment of munitions
- Chemical agents
- Diversionary devices
- Research and trauma
- Instructional techniques

Required Equipment

- Eye and ear protection
- Pen and paper
- Gas Mask w/ appropriate filter
- Foul weather gear
- Gloves (leather, Nomex, Kevlar or a combination)
- Glasses (if you wear contacts)
- Towel and/or change of clothing (for OC contamination and CS exposure drills)
- Hydration source

If available

- 12ga pump shotgun (Cylinder or IC)
- 40mm launcher

Suggested

- Sunscreen
- State/government issued ID

**All munitions along with training/instructor material will be provided by ALS.
