

# LAW ENFORCEMENT LESS LETHAL TACTICAL APPLICATIONS AND INSTRUCTOR COURSE OUTLINE

## Program Description

This application and instructor course is designed for officers with previous exposure experience and use with less lethal munitions. It covers the complete line of AMTEC Less-Lethal Systems, Inc. munitions. Upon graduation, students will be certified to train others within their department as end users in the deployment and use of OC aerosols, kinetic energy impact projectiles, chemical agents, noise/flash diversionary devices and stun munitions. Graduates will also leave with tactical applications available with less lethal munitions geared toward the law enforcement community.

## Course Schedule

All morning portions will be in a classroom setting with a lecture and PowerPoint presentation. All afternoon portions will be at the range (or suitable area) for hands-on and munitions deployment.

**Day One: 0900** – Chemical Munitions geared toward law enforcement use and applications in the field. Day one includes CS Exposure Drill - which is mandatory

**Day Two: 0900** – Specialty Impact Munitions

**Day Three: 0900** – Noise Flash Diversionary Devices

*Level 1 OC Exposure will be available at the close of day one if needed for certification with your agency*
